Reference letter on behalf of Astou Seye

Ms. Astou Seye was a student in my algebra based Introductory Physics (Physics 122) class in Fall 2005. She received an A- for the course. Prior to that I had known Astou as one of the student helpers at the Center for Africana Studies here at Central Connecticut State University.

Astou comes across to me as a very intelligent student, with a very bright future. She seems to take her work very seriously, and has the drive necessary for success in the sciences and health related fields. Astou showed very clear understanding of class discussion, and her answers to exam questions were well organized and well done. Her lab skills were also very good and she received an A for the lab portion of the course. At the Center for Africana Studies, she helped with tutoring and a host of other programs of the Center including the Annual Conferences of the Center.

Astou is a hard working and very intelligent young lady, and I believe she will do very well in medical school and go on to become a successful professional. I highly recommend her for your program. Please do not hesitate to contact me if I can be of any further assistance. My phone number is (860) 832-2939, and my email address is lemaire@ccsu.edu.

Sincerely,

Peter K. LeMaire, Ph.D.
(Professor of Physics)
